- Do not ingest
- Keep away from children and pets
- Follow all instructions

**THIS PRODUCT IS NON-HAZARDOUS
AS DEFINED IN 29CFR 1910.1200**

General Information

SoilTech is a liquid soil amendment. When mixed with water and applied to the soil it will alleviate compaction in clay soils or soils hardened due to mechanical compaction. It loosens and aerates the soil with a blend of eleven different polymers. SoilTech does not contain any form of pesticide.

This product is for use on athletic fields, cemeteries, golf courses, ornamental turf lawns (industrial, institutional and residential), parks, and similar turf areas. Also, for use on sod farms or other agricultural areas. Use anywhere the soil structure would benefit from having the soil loosened and aerated.

When mixing according to label directions it can be applied to most plant material without harm. Can be mixed with most common pesticides and fertilizer, be sure to test for compatibility before using.

Directions For Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling. **READ ENTIRE LABEL BEFORE USING THIS PRODUCT, USE STRICTLY IN ACCORDANCE WITH LABEL DIRECTIONS.**

SoilTech can be applied by any liquid spray system, from a hand-can to a hose-end sprayer to a fertigation system, without harming components.

APPLICATION RATES

NORMAL COMPACTION: Apply at 2.9oz./ 1,000ft² or 1gallon/ acre once a year.

SEVERE COMPACTION: Apply at 3.6oz./ 1,000ft² or 1.25gallons/ acre and apply twice in a 60 day period.

HIGH TRAFFIC AREAS: In high traffic areas such as, multi-sport fields, and certain areas on golf courses, apply the product once in the spring and once in the fall.

MIX RATE

Mix desired amount of SoilTech with at least 50 and up to 200 gallons of water per acre. The more water with the solution the more accelerated the efficacy of the product will be.

USE PRECAUTION

Do not apply to skinned areas of softball and baseball fields or any other dirt areas that normally would remain packed and/or firm.

Do not apply in freezing temperatures or when freezing temperatures are expected.
